Baby and Children's Book of Remembrance

A selection of possible bespoke illustrations

Babies and Children.

At a time of bereavement it is natural to quietly remember and express personal feelings. In response to growing recognition of a need to provide a memorial specifically for still born, neo-natal, babies and young children, we offer a specific Book of Remembrance and associated hand-made personal miniature books and cards.

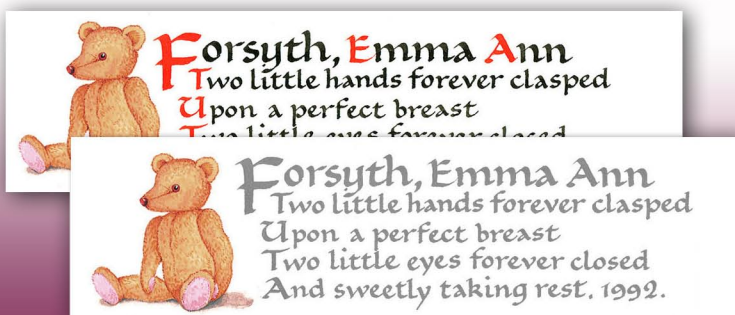

Book of Remembrance

The Book of Remembrance provides an inexpensive and lasting form of memorial to babies & young children, buried or cremated; including interment in gardens.

This book is available either *full bound* in leather, with gold-tooled covers including a teddy bear or cross, or a leather *loose leaf* binding enabling pages to be sent for inscribing.

Usually the book is bound and inscribed as illustrated here, measuring 14" x 11" closed. However as our books are individually hand-made, books may be made to your own requirements.

The layout (in the instance of crematoria), for the content of the book is usually a copy of the layout in the larger Books of Remembrance, The calligraphy within written in grey, providing a softer look to reflect the sensitive nature of the inscription.
