## 'A Fond Farewell'

We believe society's attitude towards death and memorialisation is changing, the trend is to celebrate the life of a loved one instead of marking their passing.

We supply a range of clean lined, modern memorials, hand crafted using time honoured techniques by skilled calligraphers, gilders and illustrators. Each memorial provides a bespoke, personal dedication, the memorial text in which does not have to be a copy of the Book of Remembrance inscription.

Epitaphs may be embellished with floral emblems, military badges, Coats of Arms or virtually any other bespoke design.

Additionally, a photograph of the applicants choice may be reproduced and bound within.

These permanent memorials are supplied in a presentation box or matching envelope.

### The Memorial Collection:

- The Lily Card
- The Miniature Book
- The Triptych
- The Baby Memorial Card
- The Baby Miniature Book

# Personal Memorials

Miniature books are furnished in a modern brushed faux suede fabric which is available in several colours, the pages of which are blank to accommodate several entries, pieces of artwork, poems or verses.

The Baby Memorial Card has a gold teddy bear on the front with a bow which can be painted blue or pink. The Baby Miniature Books are white leather with blank pages.

The Lily Card is produced in a pale cream, heavy weight paper with a square embossed floral design in the centre. Inside is a blank quality paper insert to offer space for more than one entry or an entry & photograph if desired.

The calligraphy is written in grey providing a softer look to reflect the sensitive nature of the inscription.

The Triptych is a traditional product with a modern twist. Each panel in this three sided design offers scope. The customer chooses where the artwork, calligraphy and photographs are placed, and a memento pocket into which small personal items may be kept can be placed onto the right hand face if required.

**All memorials are made and inscribed by hand using traditional materials and craftsmanship.**
